Yes. They proposed to dredge a channel to get from their port facilities to deep water. I believe the depth at the dock is sufficient but there are shoals the need to get through.

Thanks Phil. Different project (Pebble), same question (any dredging & dredged material disposal in water?).

Subject: Chuitna Coal Project: Dredging & Dredged Material

Hi Phil. Does the Chuitna Coal Project include dredging & dredged material disposal (i.e., discharge or dumping) in water (i.e., inland waters or ocean waters)?
